

Biology - Plants progression: Year 1 - Year 6

Year 1	Year 2	Year 3	Year 4	Year 5	Year 6
identify and name a variety of common wild and garden plants, including deciduous and evergreen trees	observe and describe how seeds and bulbs grow into mature plants	identify and describe the functions of different parts of flowering plants: roots, stem/trunk, leaves and flowers			
identify and describe the basic structure of a variety of common flowering plants, including trees	find out and describe how plants need water, light and a suitable temperature to grow and stay healthy	explore the requirements of plants for life and growth (air, light, water, nutrients from soil, and room to grow) and how they vary from plant to plant			
		investigate the way in which water is transported within plants			
		explore the part that flowers play in the life cycle of flowering plants, including pollination, seed formation and seed dispersal
